Dorner Launches Free Conveyor Applications Hotline

HARTLAND, Wis., (Jan. 13, 2010) — If you're wrestling with a conveyor challenge or having trouble moving product smoothly through your facility, help is only a phone call away.

[Dorner Mfg.](#) launched an [Applications Hotline](#) (800-351-8712) with engineers ready and available to offer free technical assistance on conveyors, and product & material handling applications. The hotline is staffed weekdays from 8 a.m. to 4:30 p.m. CDT.

A few of the questions [Dorner's hotline](#) is already handling: "I want to cure a part on the belt and need a very slow belt speed of two inches a minute;" "I need to move soup bags on a conveyor to a packaging station. How can a flexible soup bag stay on a conveyor?" "I need to flip a 40-pound block of cheese over, how can this be accomplished efficiently?"

"We're proud of our ability to provide this valuable, complimentary service to the industry," said Gary Wemmert, Dorner's director of parts and service. "The hotline is part of the [Dorner Advantage](#), a program of action, support and service that shows our commitment to going the extra mile to solve conveyor and product flow challenges."

Whether the challenge is fast- or slow-speed conveying, product transfers or any other material handling question, Dorner engineers are ready to provide you with advice and assistance for your specific application.

To speak with an engineer for free technical assistance, call 800-351-8712. To contact other company personnel call 800-397-8664 or visit www.dorner.com.
