FOR IMMEDIATE RELEASE

Dorner Introduces Special Offer in Conjunction with new FIT Program

For a limited time, customers to receive free conveyor tuning, maintenance training and more

HARTLAND, Wis., – Dorner Mfg. Corp. recently introduced the FIT Program, an industry-leading services program that ensures operational efficiency and reliability in its customers’ plants. In fact, to mark the program’s recent launch, Dorner is extending a special, **“Get FIT – 5/25”** promotional offer for a limited time. Under the 5/25 offer, any customer who purchases five conveyors or places an order valued at \$25,000 will receive a free onsite visit from the Dorner FIT Squad. This highly trained and experienced team will tune any new conveyors, train in-house maintenance personnel, review the safety of the system, and address any potential warranty issues free-of-charge.

“Simply put, this is an offer that everyone can afford, but no one can afford to miss,” said Gary Wemmert, director of parts and services for Dorner Mfg. Corp. “Our FIT Squad is uniquely qualified to help customers create a plan to reduce capital expenses, reduce scrap expenses, conserve resources, repurpose existing conveyors, and meet green objectives. There’s no question that the free, one-day inspection we’re extending through our 5/25 offer could really pay dividends down the road.”

For complete details about the Get FIT – 5/25 offer or the new Dorner FIT Program, please connect with Dorner Services today by calling **1-800-397-8664** or emailing **customerservice@dorner.com**.

The Dorner FIT Program is designed to support customers by increasing production output while reducing overall costs. Through the broad-reaching new program, the Dorner FIT Squad will visit customers to install new conveyors, evaluate existing equipment, train in-house maintenance staff, and more. The program also provides replacement parts and belts that can be shipped in 24 hours or sooner to keep Dorner customers up and running.

Based in Hartland, Wis., Dorner Mfg. Corp. is a world leader in the design, manufacture and distribution of high-quality conveyors and related equipment. Since 1973, companies from around the world have turned to Dorner for greatly improved efficiency and productivity. Additional information about the company can be obtained online at dorner.com.
