## Complete Stainless Steel Construction

- Stainless Steel Construction is ideal for corrosion resistant applications or packaging lines

## Wheel Corners

- Standard wheel corners eliminate friction allowing for complicated multi-curved configurations

## Wedge Elevator

- Wedge Elevators save footprint space by vertically lifting or lowering a product using a specialty gripper chain

## Alpines

- Alpine configurations available for product buffering, elevation changes or coding/curing applications

## The Benefits of a Dorner FlexMove Stainless Steel Series Conveyor

### Reduces Costs

- Available pre-assembled to your exact specifications; saving labor costs
- FlexMove Solutions eliminates unnecessary cutting, inventory and waste

### Delivers Fast

- Dorner sets the industry standard for delivery
- FlexMove is shattering the norm with conveyors available to ship in as little as 15 working days

### Flexible

- Provides capability for vertical incline with minimal floor space
- Features modular framing for future add-on capability and production line changes
