## Conveyor Use and Policy

Return the demo in the condition with which you receive it. You are responsible for any costs related to damage. Please do not destroy the crate.

The demo conveyor, unless otherwise noted, is stored at Dorner Mfg. in Hartland, WI. Dorner can arrange freight and apply our strong discounts. However, the channel using the demo will be responsible for freight costs to and from Dorner. In certain cases, Dorner may opt to pay freight one way. Most demos require a fork lift or similar to lift the crate from a semi-trailer and cannot ship UPS.
