## Have You Visited the Dorner Virtual Showcase?

*Dorner brings the trade show experience to life! See how Dorner conveyors can work with your applications; registrants have chance to win prizes.*

As industry professionals are still unable to visit Dorner in person due to trade show cancellations, Dorner is bringing the trade show to them! Dorner is hosting its own [virtual showcase](#) that includes nine demonstrations covering sanitary, automation and industrial applications. Each demonstration contains a video narrated by Dorner experts who point out features, benefits and other performance specifications.

## Find the Perfect Fit with Miniature Conveyors

Are you looking for a conveyor to move small or lightweight product? Do you need a conveyor to designed for small spaces or to integrate into your machinery? Dorner's 1100 Series Conveyor may be the perfect fit! The [1100 Series conveyor](#) platform has a compact design featuring a 3/4" frame height, making it one of the smallest conveyors available today. This low profile enables the conveyor to fit into the tightest of spaces, freeing up valuable machine or worker space.

## Center Top Guide Provides Lane Control on FlexMove Conveyor

Dorner Asia recently worked with an automotive machine maker in Malaysia to integrate a conveyor with a robot for a pick and place system. The application required two lanes of pucks that would be running in a loop. Dorner was able to create two lanes on one conveyor using custom guiding including a center top guide...

## Design Your Own Conveyor Online

*Dorner's DTools: Industry leading tool for online conveyor design*

DTools is the central location for all of [Dorner's conveyor applications](#) including our CAD library, Product Selector and Configurator. The configurator tool allows you to custom build a conveyor in minutes. Take a look at the video to see how DTools can be your first step in finding and building the perfect conveyor for your application.

## 55 Years of Passion and Innovation

Since 1966 Dorner has evolved from a small tool and die shop to the global conveyor manufacturer of today. Today, on our 55th anniversary, we invite you to take a look at where we started, where we are today and what our hopes are for the future.

Thank you to everyone who has been a part of these last 55 years for Dorner. We are excited for everything this year will hold and we truly believe the best is yet to come.
