Visit Dorner at RIA Robotics Week

Looking for new, exciting innovations in robotics and automation? Come see Dorner at **RIA Robotics Week** (*registration is free!*). Robotics Week will bring together experts from the leading robotics and automation companies for 4 days of valuable education sessions, keynotes and exhibits.

Dorner is hosting multiple presentation and open discussion sessions during the show. Check out our schedule below. We're looking forward to "seeing" you there!

Dorner's Robotics Week Schedule:

(all times in CST)

Wednesday, September 9

- 1:00 pm: **The New Beltless Conveyor: ERT250** with Mike Hosch

Thursday, September 10

- 11:00 am: **Learn to Use Dorner's Conveyor Configurator: DTools Training** with Alex Surret

Friday, September 11

- 9:00 am: **Ask the Expert: Open Discussion with Matt Jones** – VP of Sales and Aftermarket

Dorner Continues European Expansion by Building 2200 Series Modular Belt Conveyors from its German Manufacturing Facility

HARTLAND, Wis., (September 09, 2020) — Dorner's facility in Jülich, Germany (Dorner Europe) is again expanding by now manufacturing 2200 Series Modular Belt Conveyors.

Dorner is an industry leader in the design, application, manufacturing and integration of precision industrial and sanitary conveyor systems.

The 2200 Series Modular Belt is ideal for small to medium part handling within the automation, packaging, assembling, metalworking and general manufacturing industries. The conveyor comes with features and benefits that make it the go-to choice for conveying applications, including:

Dorner Latin America Now Building 2200 Series Precision Move Pallet Systems

Dorner Latin America continues to grow their capacity by adding the 2200 Series Precision Move Pallet System Conveyor as its fourth major platform to be assembled at their facility in Guadalajara, Mexico. The

2200 Series Precision Move Pallet System Conveyor is designed to increase efficiency and reduce downtime in assembly automation processes for their latin america customers.

Dorner is an industry leader in the design, application, manufacturing and integration of precision industrial and sanitary conveyor systems.

Product Serves as Pallet in Precision Move Application

Dorner's 2200 Precision Move Pallet System conveyors are designed to provide accurate positioning and routing of parts for assembly, robotic and inspection applications. Recently, Dorner completed an assembly automation system utilizing a series of 2200 Heavy Load Precision Move Pallet conveyors for a customer that needed to transport 80 lb battery cells glued inside painted steel module housing. This particular application is unique because of the heavy load nature of the battery, and the need for electrostatic dissipative timing belts due to the battery being conveyed without using pallets.

Hold Back or Pace Products with the New Clamping Module

Dorner is now offering a **Clamping Module** on its FlexMove conveyor system that gives users the ability to hold back or pace products for accumulating applications.

The Clamping Module is ideal for totes, boxes, bottles and square, round and rectangular containers. As products pass through the Clamping Module, pre-programmed photo sensors trigger a pneumatic-clamping actuator that is mounted on both sides of the conveyor. The Clamping Module produces a gap of about one product length; product must be able to withstand some back pressure and squeezing force.

Custom Conveyor for Precise Product Rotation

Recently, Dorner constructed a conveyor that is part of the same application previously featured in Custom Conveyor System for Medical Devices. The two systems were built to transport flexible medical devices.

This system includes a 2200 Series Precision Move Pallet System conveyor that serves as the base conveyor. The dual strand pallet...

Dorner Goes Virtual

We're sad that we won't be able to connect in person this year, but are looking forward to still being able to share all the great new technology in conveyor automation.

Dorner is excited to be participating and sponsoring online learning opportunities for the following virtual shows:

Let's Get Social

COVID-19 Updates

Now more than ever we stand together with the businesses that are essential to the fabric of our communities. Please know that all of our locations are open and manufacturing conveyors. We are doing everything we can to support the global fight against the virus including prioritizing all COVID-19 projects aiding essential businesses.

To learn more about the status of Dorner's Sales, Support, Supply Chain Management and Production Capacity During the COVID-19 Pandemic:
